The trading and investment calls are given based on fundamentals, technicals, newsflow and market information. They are given during the day and sent to clients. Stop losses are advised and active clients are given exit advice as well as fresh stop losses when the stocks are rising. Trading calls suit medium to slightly higher risk investors or traders. regular updates are given by sms and phone to clients and subscribers. Investment calls are at times given as accumulate or to buy more on dips and have a longer investment time frame normally. These recommendations are also updated and the reasons for buying the stocks can be discussed with your relationship / trading executive. Trailing stop losses are also used for investment calls to lock in profits and protect against any downside. Our Nifty calls are displayed separately on our website for information
